## **ABSTRAK**

Sikap disiplin, jujur, sportif, mau mengakui keunggulan lawan dan mau menerima kekurangan pada diri sendiri adalah beberapa tujuan dari proses pendidikan melalui aktivitas jasmani. Salah satu hal yang dapat menghambat proses pendidikan jasmani adalah kurangnya hubungan interaksi sosial antar peserta didik dan pelaksanaan keagamaan. Tujuan dalam penelitian ini adalah untuk menganalisa hubungan antara persepsi siswa terhadap pembelajaran pendidikan jasmani dengan kompetensi social dan motivasi beribadah siswa kelas Agama MAN 6 Jombang Tahun Pelajaran 2022/2023. Penelitian dilakukan dengan kuantitatif survei. Penelitian ini dilaksanakan di Madrasah Aliyah Negeri 6 Jombang Murukan, Kec. Mojoagung, Kabupaten Jombang, sejak bulan Pebruari – September 2022. Sampel yang diambil dari Kelas Agama berjumlah 64 siswa dengan teknik teknik Purposive Sampling dengan cara observasi, dokumentasi dan kuisioner. Untuk analisis data diberakukan Multivariat Manova. Dihasilkan 1. Tidak ada siginifikan hubungan atau persepsi pembelajaran pendidikan jasmani terhadap kompetensi sosial siswa 2. Ada siginifikan hubungan persepsi pembelajaran pendidikan jasmani terhadap motivasi beribadah siswa. 3. Ada signifikansi hubungan secara bersama-sama antara persepsi siswa pembelajaran pendidikan jasmani terhadap kompetensi sosial dan motivasi beribadah siswa.

### **ABSTRACT**

*Discipline, honesty, sportsmanship, willingness to recognise the superiority of opponents and willingness to accept shortcomings in oneself are some of the goals of the educational process through physical activity. One of the things that can hinder the physical education process is the lack of social interaction relationships between students and religious practices. The purpose of this study was to analyse the relationship between students' perceptions of physical education learning with social competence and motivation to worship students in the Religion class of MAN 6 Jombang in the 2022/2023 academic year. The research was conducted by quantitative survey. This research was conducted at Madrasah Aliyah Negeri 6 Jombang Murukan, Kec. Mojoagung, Jombang Regency, from February - September 2022. Samples taken from the Religion Class totalled 64 students with Purposive Sampling technique by means of observation, documentation and questionnaires. For data analysis, Multivariate Manova was performed. There is no significant relationship or perception of physical education learning on students' social competence 2. There is a significant relationship between perceptions of physical education learning and students' motivation to worship. 3. There is a significant relationship together between the perception of physical education learning students on social competence and motivation to worship students.*
