

ABSTRACT

Susiat Minarsih: Application of the Murajaah Method in Improving Memorizing the Al-Qur'an for Class III Students at SDIT Al-Mishbah Sedamar Sumobito Jombang Academic Year 2022/2023. This research is motivated by the existence of institutions and elementary schools that pay attention to huffadz, including SDIT Al-Mishbah Sedamar Sumobito, the activity of memorizing the Al-Qur'an is a superior program, not an extracurricular like other schools. In tahfidz learning here, the muraja'ah method is used so that students' memorization is maintained and well maintained, namely in terms of tajwid and makhraj and to sharpen new and old memorization.

The focus of research in this thesis is: (1) how to apply the muraja'ah method at SDIT Al-Mishbah Sedamar Sumobito (2) what are the obstacles in implementing the muraja'ah method at SDIT Al-Mishbah Sedamar Sumobito (3) what are the results of application of the muraja'ah method at SDIT Al-Mishbah Sedamar Sumobito.

The research objectives in writing this thesis are: (1) To determine the application of the muraja'ah method at SDIT Al-Mishbah Sedamar Sumobito. (2) To find out the obstacles in implementing the muraja'ah method at SDIT Al-Mishbah Sumobito (3) To find out the results of applying the muraja'ah method at SDIT Al-Mishbah Sedamar Sumobito. The research method used is descriptive qualitative research. Data sources were obtained from Person, Place, and Paper obtained from the field. The data collection technique used is mostly in-depth interviews, observation and documentation, namely passive participant observation, where the researcher comes to the location only to observe and is not involved in the activity.

Keywords: Muroja'ah method, memorizing the Koran.
