This study aims to determine the relationship between social anxiety and self-adjustment of new students at Darul 'Ulum University Jombang. This study involved 50 students of Darul Ulum Jombang university. Data collection techniques were carried out offline using a uestionnaire and online with google form using purposive random sampling technique. Based on the results of the Spearman's rho correlation test analysis, the correlation coefficient (r_{xy}) = -0.423 with a significance value of 0.002 ($p < 0.05$) was obtained. This shows that there is a significant negative correlation between social anxiety and self adjustment of new students at Darul 'Ulum University Jombang.
