Siti Shofiyatun Nikmah : Implementation of the Qiroati Method on the Ability to read the Al-Qur'an in Toddlers at TPQ Roudlotul Qur'an, Cukir Village, Diwek District, Jombang Regency, Islamic Religious Education Study Program, Faculty of Islamic Religion, Darul Ulum University, Jombang 2023

This research aims to determine the implementation of the Qiroati Method on the Ability to read the Al-Qur'an in Toddlers at TPQ Roudlotul Qur'an, Cukir Village, Diwek District, Jombang Regency. Qiroati has 5 stages, namely pre-Qiroati, volumes 1-6, chapter 27, Al-Qur'an and finishing.

Data analysis techniques use data reduction, data presentation and verification. Data collection techniques use interviews, observation and documentation.

The results of this research show (1) The implementation of learning activities to read the Al-Qur'an for toddlers is carried out every Saturday-Thursday for 1 hour (2) Forming the character of the TPQ Roudlotul Qur'an students through reading the Qur'an at the age of five is to increase the generation of Muslims who are Qur'an (3) Supporting factors in this method include teachers who have accepted the shahadah of the students who entry on time, facilities and infrastructure, (4) The inhibiting factors or obstacles in this method include student who are late and lack focus in paying attention to the material, and the time is relatively short.

Suggestions for TPQ are to increase learning time, and for teachers it is better to provide punishment for students who do not obey the rules and provide motivation to students in learning so that students' interest in learning can increase and they will be more active in learning.

From the results of the research, the conclusion that can be drawn is that evaluation of teaching and learning activities is carried out at every meeting, the results of which are written down in the student achievement book and the volume increase that tests the volume increase is written in the student achievement book.
